Cabinet Ministers Hold Stirring Meeting

Hon. C. R. Mitchell and Hon. Wilfrid Gariepy Address
Electors in Interest of Liberal Candidate. Refute
Many Utterances of Conservative Leader.

Another meeting was held in the city on Tuesday evening in the interests of H. J. Montgomery, the Liberal candidate, addressed by Mr. Wilfrid Gariepy, minister of municipal affairs, and Mr. C. R. Mitchell, provincial treasurer. A. G. Gross, vice-president of the local association, occupied the chair.

The first speaker was T. W. Quayle who wondered why there should be a contest, as there was no great issue at stake. He compared the financial policy of the province with other countries and the States, showing where the people were free from direct taxation. This condition would prevail as long as the Liberals were in power.

Mr. Wilfrid Gariepy referred to the death of Mr. Olin as being a distinct loss to the province and the parliament. Mr. Montgomery had made a good mayor and has every qualification to make him a good legislator. And further, he supports a policy worthy of support. The Sifton administration has been true to Liberalism, in working for honesty, efficiency and economy.

He referred to the statements of Mr. Michener regarding autonomy. Premier Borden had stated very distinctly that if the Conservatives were returned to power in 1911, Alberta would be given her natural resources as soon as possible. Both Mr. Michener and Mr. Ewing would be fair if they gave reasons why the Conservative party at Ottawa did not turn over the resources as definitely pledged by Premier Borden.

The Sifton government desires to help the pioneer settlers who have come here and made good, and for this reason all the regulations of the farmers' associations are complied with. When it comes to coal mines, it is known that the government has done. They smashed the lumber combine, and the telephone monopoly, as well as the elevator monopoly, by assisting the farmers to finance their own elevators. It is almost a mockery to have in this contest an elevator man. If the farmers are true to themselves, they will rally to the support of Mr. Montgomery.

Mr. Mitchell, after referring to the regrettable circumstances necessitating the election, stated that Wetaskiwin had received its full share of financial assistance. Wetaskiwin had a court house, one of the best in the province, and was one of the judicial centres which includes the officers. Wetaskiwin had been treated proper

Town Topics

Mrs. Ed. Torresan was called from Wetaskiwin on Tuesday to be at the bedside of her father who died on Wednesday morning—Bavly Sun.

The Ladies Aid of the Methodist church will meet in the home of Mrs. R. A. Elliott on Wednesday afternoon, November 11, at four o'clock. The committee are urged to be present.

Remember the Big Patriot's auction sale being conducted by Geo. L. Owen on Saturday, November 14, at the corner of Railway street east and Pearce St. 500 advt elsewhere in this issue.

Mrs. H. G. Taylor, of Ontario, arrived in the city on Saturday morning to visit her mother, Mrs. C. W. S. Harkness, who has been ailing for several months.

We are informed that there will be no difficulty in securing the hotel number of permits at the point for the second continuing. Fifty or more have signified their desire to join in defence of the empire. It is likely that recruiting will take place next week.

Conservative Meeting

Large Crowd Addressed By Conservative Leader and Mr.
A. F. Ewing, M. P. P.

The first meeting of the campaign in the interests of the Conservative candidate was held in the Angus Theatre on Friday evening last. Mr. F. B. Michener, M.P.P., leader of the party, and A. F. Ewing, M.P.P., of Edmonton, addressed the gathering. Mr. F. B. Michener was chairman, and stated that the electors should send Mr. Watson to the legislature as the Liberal member had not been able to procure anything, worth while for the constituency.

F. B. Watson, the Conservative candidate, was then introduced to the audience, but he refrained from delivering a campaign speech, as he expected to have the opportunity of discussing political questions at another time before polling day. Mr. Michener was the next speaker and after paying a high tribute to the memory of the late member, went at length into the closing scenes of the recent session and endeavored to show wherein the policy of justice at Ottawa to prevent the publication of seditious articles in an Edmonton paper when he contended, such duty devolved upon the attorney general's department of the province. The opposition introduced a resolution in the hope that the Attorney-General's department suppress the publication of the seditious paper in question, but this was defeated on a straight party vote.

It has been charged that the Conservatives should let the bye-election go by acclamation, but it was time that the legislature was put in order, and a strong opposition was required. In the interests of good government, Mr. Watson should be elected on Nov. 17.

Since 1905, the government has had a free hand, and this has led to a huge and maldistribution. Mr. Michener charged the administration with reckless expenditures for railways and investments in railway bonds and not legislating in the best interests of the farmers, as they were not constructing good roads and the highways were not being built where most required. A few years ago the slogan was "Better Roads, Railways and Reliability." Now it should be "Sifton, Lathbridge and Cancellation of Railways."

In the matter of natural resources for the province, although the Liberal party at the time of autonomy did not hold out for the resources, yet they had come to see the necessity of these resources being handed over to the province, and now stand in accord with us.

Mr. Michener said he had persistently and consistently advocated for good roads in his constituency, but as the money was spent for other purposes, he had never been able to get the roads in his constituency fixed as they should be, and he believed the same complaint was heard from every part of the province. The Conservative party first advocated the policy of government elevators which the Sifton administration placed on the statute books. Referring to the financial position

F. B. Watson Is Conservative Choice

Large Gathering of Delegates Make Selection. Geo. B. Campbell and Amos Doupe Withdraw Names Before Vote Is Taken.

At a large and enthusiastic convention held in the Angus Theatre on Friday, October 30, Mr. Finlay B. Watson was elected as the standard bearer of the Liberal Conservative party in the forthcoming provincial bye-election. Mr. Amos Doupe was very representative and nearly every part of the constituency had their delegates present.

The following is the list of delegates present:
Wetaskiwin—Messrs. Geo. L. Smith, W. L. Crane, L. L. Smees, F. B. Watson, R. M. Angus, D. R. Ritchie, J. F. Ellis, R. C. Switzer, J. M. Peters, S. H. Farham, P. E. Kelley, J. S. Watson, W. H. Staples, J. Lake, W. J. Loggie, W. Manley, H. J. McGrandle, C. Doupe, J. F. Fowler, H. R. French, W. H. French, W. H. French, B. Baylis, C. H. Russell, L. G. Kelley, R. J. Sanders, R. A. Elliott, C. E. Compton, D. A. Baker, W. F. Murphy.

Wetaskiwin—E. K. A. Galleken, D. MacBarron, J. H. Payne, Geo. L. Guthard, T. P. Ball, Geo. W. Owen, H. F. Starck, Fred Alderman, W. D. Alderman, B. Hilgert, E. Hilgert, J. W. Watson.

Town Topics

F. L. Talbot will leave on Sunday for a week's vacation.

John Bleiler made a business trip to Alton last week, returning Monday.

Don't fail to attend the big concert given this evening in the Angus Theatre by the Apollo Choir.

D. Morrison of Calgary was in the city this week on business, as well as reviewing the acquaintance of his many friends.

Mr. Lyle Cameron who has been visiting at the home of Mr. and Mrs. A. A. Morris, returned home to Edmonton on Monday.

E. Pearl Lind, has leased the premises one door west of his store and will take possession in a few days. He is now out of the city on a purchasing trip.

A. W. Kennedy of Lethbridge was a guest at the hotel here. He made a very day's work. Together they went out for a three days' shoot, and succeeded in bagging 130 birds.

S. S. Rosewell, who has been on a trip to Halifax on business connected with the provincial government, returned home on Saturday morning.

A. J. Campbell of the Merchants Bank staff was at Edmonton on Monday, leaving for Lethbridge to a brother, who left that night with the contingent of one hundred men for the front.

Rev. Mr. Sheppard, of Coldwater, Ont., arrived in the city a few days ago as pastor of Emmanuel church, and conducted his first services on Sunday last. Mr. and Mrs. Sheppard are now settling in the rectory.

And Rev. Liversidge has turned Conservative. We wonder what his inducements were dangled before his covetous eyes to tempt him to change his political affiliations on the eve of an election.

The customs office was moved the first of the month to the new building on Pearce street east. Henry Nelson who occupied the building has moved his grocery store to the Commonwealth block, two doors west of the corner of Mel and Pearce streets west.

One of the pretty sights to be seen in the city this week is a display of prize prize and gold medals. The car was shipped from Grand Forks by W. H. Collins, who took first prize at Tacoma and Seattle in the prize for carrying the gold medal at St. Louis exposition. They are displayed in the Banner Store windows.

FOR SALE—1 child's cot and mattress, almost new; 1 baby carriage in good condition; 1 baby stroller and 1 child's two wheeled cart. Apply to the Times office. 33-tn.

LOST—On Saturday evening on Pearce St. purse containing sum of money and post office key. Reward by leaving same at the Times office. 33-tn.

TENDERS FOR SCHOOL HOUSE

Sealed Tenders will be received by the board of trustees of Wang school district No. 156, at the residence of the secretary-treasurer, S.W. 1 Sec. 19, Twp. 47, Rge. 23, up to noon on the 10th day of November, 1914, for the erection of a frame school building. Plans and specifications may be seen at undersigned.

The lowest or any tender not necessarily accepted.
Dated Nov. 3, 1914.

V. C. FRENCH,

Editor and Proprietor

CONDITIONS IN BELGIUM VIVID-

LY DESCRIBED BY REV. FR.

WILKINSON.

Readers of the Wetaskiwin Times
may perhaps be interested in reading
the final chapter of the story of the
country which has been from the be-
ginning of the war the scene of the
fiercest fighting and irreparable de-
struction, and the people who
through their stubborn resistance
and indomitable bravery have attri-
buted the attention of the whole world.

If you divide the province of Al-
berta into about fifteen parts, and if
in one of the parts you place 1.5
whole population of Canada, you
will have an idea of the size and pop-
ulation of Belgium. According to
the census of December, 1905, the po-
pulation of Belgium was 7,169,547,
which was increased during the last
nine years by 700,000. In certain
parts of the kingdom, one would
have counted 45 people to the
square mile. It is evident that a
country so thickly populated, and with
natural resources and great industry
and toil displayed to produce these
crowds with the necessities of life,
shelter, food, clothing, food, etc.

Numerous forests with giant trees
inexhaustible coal and ore mines,
covering the whole country, number-
less quarries of rock and granite,
fragrant meadows where fat steers
and peacefully sleep with their lambs
are peacefully grazing, large fields
richly fertilized by the sweat of the
laborer's brow and the heavy pull of
his powerful horses and murmuring
brooks watering the soil and keeping
it as green as a lawn. In certain
parts of the kingdom, one would
have counted 45 people to the
square mile. It is evident that a
country so thickly populated, and with
natural resources and great industry
and toil displayed to produce these
crowds with the necessities of life,
shelter, food, clothing, food, etc.

Travellers who happen to visit Bel-
gium, always enjoy their trip, and
every year many make their head-
quarters at the coast, where Ostend,
Blankenberge and Heyst represent
the loveliest resorts during the sum-
mer months. Beautiful cities, hold-
ing within their boundaries temples
of art and music, blessed shrines
where the people worship, the daily
hamlets rich with wheat fields,
smiling meadows and mysterious
woods and forests all have been
ruined and destroyed during these
few weeks of war and misery.

The people from the country have
been driven to the cities, and where
they have been crowded together, they
and citizens went abroad to seek
shelter among the neighboring friend-
ly nations, carrying with them
few things they had been able to
save. One must know them to under-
stand all the harrowing scenes that
took place, where houses and prop-
erty were destroyed, families parted,
finding themselves deprived of all
things dear to them.

This is not the first time the Bel-
gians have been victims of war. In
the 15th century, Belgium was a
session of Spain, during the reign of
Ferdinand and Isabella. These sov-
ereigns were kind to the poor, and
one can admire yet in the cathe-
dral of Brussels, the splendid stained
glass windows (15th century) which
they adorned the magnificent cloth-
ing. Many other shrines received
costly donations from the beloved
king and queen. But when they had
died, under Philip II, took place
the reign of Joseph II and Mary
Theresa also tantamount Belgium, per-
haps by bloodshed, fire, and fire,
enormous taxes which they were un-
able to pay, and as a consequence,
ending them into prison and sen-
tencing them to hard labor. The cruel-
ty of those days are still alive in
the memory of the people. On June
26, 1794, the victory of Fleurus gain-
ed by the French army over the Aus-
trian forces gave to revolutionary
France all the territories which con-
stituted Belgium of today. The French
who professed to have liberated the
country to deliver the Belgians from
the yoke of tyranny and to liberate
them, really gave themselves up
to pillaging and extortion, they
left the inhabitants nothing but their
eyes to weep. No one knows what
became of Belgium at the time of
the French revolution. "The regime
of terror" when once more the popu-
lation was decimated, and 7,500 of
the priests were illegally condemned
to be deported to the islands of the
North and the Guianas. Napoleon's rule
was also a cruel experience for

OWES HER LIFE TO
"FRUIT-A-LIVES"Cured Both Stomach Trouble
and Headaches

PALMERSTON, ONT., JUNE 26th, 1913.
"I really believe that I owe my life to
"Fruit-a-lives". Ever since child-
hood, I have been under the care of
physicians, but have had no success
doctor's bills. I was so sick and worn
out that people on the street often
asked me if I thought I could get
along without help. The same old
Stomach Trouble and distressing
headaches nearly drove me wild.
Some time ago, I got a box of "Fruit-
a-lives" and the next day I was
able to eat and take my medicine.
My husband was delighted and ad-
vised a continuation of their use.

Today, I am feeling fine on the street,
noticed my improved appearance and
asked the reason. I replied, "I am
taking Fruit-a-lives". He said, "Well,
if Fruit-a-lives are making you look so
well, go ahead and take them. They
are doing more for you than I can".

MRS. H. S. WILLIAMS.

"Fruit-a-lives" are sold by all
druggists at a price of \$2.50, and in
size 25c or sent postpaid on receipt of
price by Fruit-a-lives Limited, Ottawa.

thing they would dream of would be
to emigrate to a foreign country,
even under the most favorable in-
ducements.

A Belgian soldier's pay is 25 cents
a day, and it would be interesting
to see them meet our Canadian boys
with a fortunate salary of \$1.00 per
day.

Belgium has no national language.
The northern provinces, the two
Flanders, Antwerp, Leuven and Brabant
partly speak Flemish, the old
Dutch, which was the origin of the
German. Luxembourg uses the Ger-
man tongue and the southern prov-
inces whose people are known as the
"wallons," speak French. Practi-
cally nearly all Belgians speak French
and Flemish, and vice versa. Ger-
man and English. In a cosmopolitan
city like Antwerp, it is a necessity
to be acquainted with some of which
this place is the "metropolis" being
today the first harbor on the contin-
ent, it is difficult for a young man
to find a remunerative position in
the city if he does not master at
least three languages.

Travellers who happen to visit Bel-
gium, always enjoy their trip, and
every year many make their head-
quarters at the coast, where Ostend,
Blankenberge and Heyst represent
the loveliest resorts during the sum-
mer months. Beautiful cities, hold-
ing within their boundaries temples
of art and music, blessed shrines
where the people worship, the daily
hamlets rich with wheat fields,
smiling meadows and mysterious
woods and forests all have been
ruined and destroyed during these
few weeks of war and misery.

The people from the country have
been driven to the cities, and where
they have been crowded together, they
and citizens went abroad to seek
shelter among the neighboring friend-
ly nations, carrying with them
few things they had been able to
save. One must know them to under-
stand all the harrowing scenes that
took place, where houses and prop-
erty were destroyed, families parted,
finding themselves deprived of all
things dear to them.

This is not the first time the Bel-
gians have been victims of war. In
the 15th century, Belgium was a
session of Spain, during the reign of
Ferdinand and Isabella. These sov-
ereigns were kind to the poor, and
one can admire yet in the cathe-
dral of Brussels, the splendid stained
glass windows (15th century) which
they adorned the magnificent cloth-
ing. Many other shrines received
costly donations from the beloved
king and queen. But when they had
died, under Philip II, took place
the reign of Joseph II and Mary
Theresa also tantamount Belgium, per-
haps by bloodshed, fire, and fire,
enormous taxes which they were un-
able to pay, and as a consequence,
ending them into prison and sen-
tencing them to hard labor. The cruel-
ty of those days are still alive in
the memory of the people. On June
26, 1794, the victory of Fleurus gain-
ed by the French army over the Aus-
trian forces gave to revolutionary
France all the territories which con-
stituted Belgium of today. The French
who professed to have liberated the
country to deliver the Belgians from
the yoke of tyranny and to liberate
them, really gave themselves up
to pillaging and extortion, they
left the inhabitants nothing but their
eyes to weep. No one knows what
became of Belgium at the time of
the French revolution. "The regime
of terror" when once more the popu-
lation was decimated, and 7,500 of
the priests were illegally condemned
to be deported to the islands of the
North and the Guianas. Napoleon's rule
was also a cruel experience for

(the Belgians. The fall of the great
emperor at Waterloo was acclaimed
with universal joy, many took arms
against him in the campaign of 1814
and 1815. Soon after the victory of
the allied powers, in the secret treat-
y of London (June 23, 1814), they
decided the people by deciding that
Holland should receive, as an addition
of territory and that this addition
should be Belgium. The object of the
powers in creating the kingdom of
the Netherlands was to give France
on her northern frontier, a neighbor
strong enough to serve as a barrier
against her, and with this aim they
chose the Belgians, passionately attached
to their national traditions, and even
more to their religious unity, did not
suffer long under a constitution
which had legally repudiated, and
the existence of the kingdom of the
Netherlands proved to be a source of
trouble and discord, and in 1830, the
Belgian revolution broke out in Brussels,
which culminated in the conflicts between
the Dutch troops and the people of
Brussels, assisted by reinforcements
of troops from the provinces. The
Dutch army had even taken the role
of the southern provinces, and Bel-
gium was proclaimed. From that time
to the present war, every year great
festivities were held to celebrate
this memorable event. In spite of
all the persecutions and hardships
which were Belgium's lot during the
last two centuries, the little nation,
by its commerce and industry was
looked upon as the most thriving
and prosperous on the globe. And
now, which will be the fate of Bel-
gium, after the most terrible calam-
ity that ever befell her, now that she
again as the Brussels magistrate pro-
claimed nearly a century ago, there
is nothing left to her save and de-
struction but her eyes to weep? The
primate of the Belgian clergy, Car-
dinal Mercier, weeping over her be-
fore God, says: "Belgium is brave,
she will arise from her bed of
ashes, and restore her temples,
and invite the nation to celebrate
with great solemnity the day of
its deliverance and restored indepen-
dence to enjoy again as of yore the friend-
ly hospitality which has been offer-
ing to all at all times."

DURING BELGIAN FARMERS' TO
ALBERTA.

Tax ridden agriculturists from the
war-torn countries of Europe, who
whichever side wins will be bowed
down beneath the awful burden of
indemnities and war wastage, will
be bought to Canada by the Cana-
dian Pacific railway, according to
the statement of J. S. Dennis, vice-
president, who at the banquet to
hold the business of the recently
held Irrigation Congress at the
Hotel last night, revealed the
result of deliberations at the C.P.R.
council on this question. Mr. Den-
nis, who has just returned from Mon-
treal, acted as chairman.

"What better asset could Canada
have than 1,000 Belgian farmers?
If we have to pay their postage
out, put up their buildings and their
barns and keep them for two years?"
he asked—Albion.

UNRESERVED
Auction Sale

OF FARM STOCK, MACHINERY,
AND HOUSEHOLD EFFECTS
ON NOVEMBER 10TH, 1914.

On the N.W. 1 Sec. 32-47-21, sale to
start at 11 a.m.

The undersigned Auctioneer has re-
ceived instructions to sell the follow-
ing:

HOUSES—Black horse, 10 yrs. wt.
1400; Bay horse, 5 yrs. wt. 1200; 2
bay horses, 3 yrs. wt. 2200; Bay
horse, 12 yrs. wt. 1200; Bay pony
mare, 5 yrs. in foal, wt. 900; Brown
horse, 5 yrs. wt. 1000; Dark brown
horse, 5 yrs. wt. 1000; Gray colt, 1
year.

CATTLE—5 extra good milk cows,
will fresh this fall; 4 two year
old heifers in calf; 3 three year
old steers; 1 two year old steer; 5 calves
Chickens—90 chickens, 3 turkeys.

SPECIAL STEAMSHIP SAILINGS.

The Grand Trunk Pacific railway
feels it their duty to advise their pa-
trons through the columns of this
publication the fact that a number
of steamships assigned by the vari-
ous steamship companies to Christ-
mas excursion travel is very limited,
and we all are aware, to the fact
that a great number of steam-
ers having been requisitioned by his
majesty's government, in defense of
the British empire. Consequently
patrons contemplating an ocean voy-
age and taking advantage of the us-
ual holiday rates prevailing at that
time should make it their duty to
consult the Grand Trunk Pacific agent
at the earliest opportunity and
make arrangements for the trip. The
Grand Trunk Pacific contemplates run-
ning through special electric lighted
tourist sleeping cars to Atlantic sea-
ports to connect with the various
transatlantic steamers. These have
proved very popular in the past and
numerous enquiries have been re-
ceived at headquarters as to it through
tourist cars would again be operat-

No Chance for a Kick

When you buy your Lumber and Building Materials here. Look-
ing backward over the past you may recall instances of dissat-
isfaction with the quality of the Lumber and Building Material
which you bought.

If this is so, it should certainly interest you to know that we
have a stock from which you can get the kind of material that
suits you, at prices no greater, and often less, than you will
have to pay for unsatisfactory stuff at other places.

When we sell you Lumber or Building Material, we expect you
to come again. This being the case, why shouldn't we do all
we can to please you in quality, price and treatment?

The fact that buyers almost invariably come back after once
buying here is strong evidence that we give them "no chance
to kick."

LIGHT RAILWAYS

By an act of the legislature the government is given power to guarantee the bonds of what are known as light railways. These railways are designed to meet the needs of districts not served by the big trunk systems and thus facilitate the development of the farming community by making it easier to place their produce on the markets of the world. Long hauls are profit destroyers and realizing that it would be impossible to induce the big railways to go everywhere, such a policy being financially impracticable, the Sifton government decided to encourage the farmers in building light railways which would enable them to reach the market centres and eliminate the long hauls. The first of these roads is being built between Lacombe and Blundman Valley and there is no doubt but that it will greatly assist the settlers in that district. The Times has in the past urged that some such scheme would serve the remote districts of this riding and prove of great help to the farmers. We are pleased to note that Mr. Montgomery is in line with us and is also strongly favorable to the farmers going in for such a road. He has pledged himself to do all that he can to further any such project and having the ear of the government there is no doubt but that he

could greatly facilitate the securing of the necessary bond guarantee. Mr. Watson could not give this assistance and for that reason The Times feels like urging upon the farmers the desirability of letting the party feelings lie in abeyance for the time being and support the man who can help along this policy. It is a matter of vital interest to scores of progressive farmers who are retarded in their work through the killing distance they live from a shipping point. The construction of a light railway would bring the market practically to their doors and, with the long distance telephone there is no reason why they should not keep in constant touch with market conditions and ship their produce when prices are the most favorable. At present those living a long way from have to draw their produce with a profit killing trip, and take chances on the market fluctuations. The light railway and the telephone would do much to add to the farmers' profits. Vote for Montgomery.

WHY NOT A CITIZENS'

DEFENCE LEAGUE

We are daily being brought nearer to the realization of the probable necessity of preparing against trouble to our own country by German and Austrian-Americans. A dispatch from Montreal published in the Edmonton Bulletin of this date must impress this fact upon us.

The officers of the local unit of the militia are only too anxious to devote their time to the drilling and general instruction of a Citizens' Defence League, if such can be formed in Wetaskiwin.

We would be glad to publish any expressions of opinion in this matter.

Washington, Oct. 28.—President Wilson, today issued a proclamation authorizing the observance, Thursday, November 26, as Thanksgiving Day.

LIST OF LANDS

IN THE BONNIE GLEN SCHOOL DISTRICT NO. 123 OF THE PROVINCE OF ALBERTA TO BE SOLD FOR TAXES AS AUTHORIZED BY THE SCHOOL ASSESSMENT ORDINANCE.

Description of Property	Arrears of Taxes	Cost of Advertising	Fee under Ordinance	Total charged against parcel
N. E. 1-4 Sec. 10-47-27 W. 4 M.	\$84.00 and Interest	\$17.40	.25	\$101.65 and Interest

NOTICE IS HEREBY GIVEN that unless the arrears of taxes and costs as shown in the above list or sooner paid I will on the 31st day of December, A.D. 1914, at the hour of 3 o'clock, p.m., at the Bonnie Glen school house, proceed to sell the land shown in the above list in respect of which the said arrears and costs are payable. Date of first insertion in newspaper, October 29th, 1914.

MEN'S OUTFITTER

Pearce Street, Wetaskiwin

EDITORIAL NOTES

Every time leader Michener speaks he adds a few millions to the debt of the province. He has a gifted imagination.

Alberta retired over three millions of treasury notes this week. No other province in Canada could duplicate the performance and we are asked to believe that the province is in a bad shape financially.

When the Alberta government issues a cheque it is honored. Why? Because the money has been hoarded, carefully during these times of stress and the finances are in a sound condition.

The farmers of Alberta have no better friend than the Sifton government. Everything the farmers asked for through the U.F.A. has been granted. The farmers of Wetaskiwin should support those who stand by the agricultural interests of the province.

Homesteaders should not be afraid of the man who comes around with threats. Any man who is complying with the regulations cannot be deprived of his rights.

Wetaskiwin has more good roads than any other riding in northern Alberta. It is a tribute to the influence and work of the late member. The logical successor to Mr. Olin is Mr. Montgomery.

What could Mr. Watson do for Wetaskiwin if he were elected? He is a fine fellow personally but so is Mr. Montgomery and the latter would have the advantage of the vote for Montgomery and Wetaskiwin.

There is no riding in Alberta for its size with more rural telephone lines than Wetaskiwin. There are yet districts to be served. It cannot all be done in a year. The man to bustle the work is Mr. Montgomery.

Mr. Montgomery has large stakes in this riding. He is an old resident and has served the community well for or after him. He has earned promotion at the hands of the people.

If the farmers of Wetaskiwin want a wheat elevator which they would own and control all they have to do is to form a company under the act and the government will advance eighty-five per cent of the cost. That is helping the farmers in a whole lot more than talk.

That fine tin court house was given Wetaskiwin by the Liberal government. It is the equal of any court house in Alberta outside of Edmonton and Calgary. It is fully as elaborate as the buildings in cities such as Lethbridge. Let us give a due measure of thanks. There is considerably more than knots coming to the government.

Mr. Michener wants to erect a hog packing plant at Red Deer where he has large property interests. When the farmers feel the need of a packing plant they will have it right here in Wetaskiwin on a co-operative basis. They are not plowing for Red Deer.

The settlers who come from the United States should remember the state, county and municipal taxes they paid there and compare them with the absence of such taxes here. All they pay in Alberta are the local improvement and school taxes. Keep the Liberal government in power and ensure a continuance of this state of affairs.

In the federal arena two new ministers are seeking election. Local Liberals in one of the ridings were sent on a contest, reckoned that they could defeat the minister. Sir Wilfrid Laurier said there must be no political animosity during an empire crisis and the point was called off. In Alberta leader Michener apparently by this that enflaming partisan rancor is the best way to help out the empire.

In Great Britain, Eastern Canada, in fact wherever the British flag flies there is a cessation of political hostilities. There is one exception. The Alberta Conservative party is out of tune with the political parties elsewhere. Wetaskiwin is in the throng of a bye-election when it is highly desirable that the British people should show a united front. If the bye-election were being fought over some great issue there might be an excuse but it is nothing more than partisan hostility and it can serve no good purpose. Mr. Watson is not showing up as a patriot.

Why should the people of Wetaskiwin

win be asked to show a division to gratify Mr. Watson's ambition to be a statesman. This is a time for O.s. playing the united front. It was no easy to give Wetaskiwin representation so that the needs of the constituency would be looked after. There is only one man who can do that effectively and that is Mr. Montgomery. If it was a general election The Times would urge opposition so as to give the people a chance to express themselves on the general policies of the two great parties. There is no policy at stake in this election. It is simply a case of factional opposition. Britain's enemies look upon just such divisions with glee.

ALBERTA FINANCIAL POSITION IS SOUND

The Alberta government took up in London Monday \$3,000,000 of treasury bills, without renewal. This clears off the last of the outstanding issues of treasury bills rendered necessary by past conditions. The province is to be congratulated on having been able to meet its obligations on the due date in these times of difficult financing.

HAD A BAD COLD WITH PROLONGED COUGHING.

TRIED NEARLY EVERYTHING FINALLY

DR. WOOD'S NORWAY PINE SYRUP CURED HIM.

Mr. Wallace H. Grange, Vancouver, B.C. writes: "During a cold spell here about the middle of last October (1913), I caught a cold which got worse despite all treatments I could obtain, until about November 22nd, a friend said, 'Why not try Dr. Wood's Norway Pine Syrup?' Really, I had no faith in it at the time as I had tried nearly every other remedy I had heard of, to no avail, but I thought I would give this last remedy a trial. I purchased a 50 cent bottle, and in three days I was feeling a different man. My cold was so hard, and the coughing so prolonged, that vomiting occurred after a hard spell of coughing. I carried the bottle in my pocket, and every time I was seized with a coughing spell I would take a small dose. I can most heartily recommend Dr. Wood's Norway Pine Syrup to anyone with a severe cold, as its powers are most marvellous, and I never intend being without it at all times."

When you ask for "Dr. Wood's" see that you get what you want for. It is put up in a yellow wrapper, three pins ties the traffic mark; the price, 25c and 50c, manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

H. L. HIGGS, Druggist, Wetaskiwin.

WILD LAND TAX

DETAILS ARE OUT

Details of the new wild land tax, through which the government next year estimates a revenue of over a half million dollars were divulged recently. It enforces a tax of ten mills or one per cent, annually on the assessed value of lands, and a special assessment on the actual cash value of land will be prepared upon which to base the tax. A careful perusal of the classes of land exempt shows that the new tax is far from being confined to wild lands. Practically every person who does not live upon, or within nine miles of his land will pay the tax. The owner of a section of land, valued at \$20 per acre, or a total of \$12,800, if he does not himself cultivate the land and live within nine miles of it, will be liable for a tax of ten mills p. a. amount, of \$128.00.

Grazing land, except those under lease from the federal government, are subject to restrictions more severe than those imposed by Dominion laws. Instead of one horse or cow to 240 acres, as the Dominion law requires, one horse or cow to 160 acres must be kept if the tax is to be escaped. Taxes are collectable by the minister of municipalities or his agent by distress if not paid within thirty days of demand.

The following clauses of the act explain its provisions and the exemptions allowed—

"For the purpose of adding to or supplementing the revenues of the crown, a tax at the rate of ten mills on the dollar of the assessed value, to be called a wild land tax, shall be annually assessed, levied and collected on all land within the province, subject to taxation under this act. Provided, however, that in the event of the tax payable on any lot or fraction of a section of land under this section for the purpose of this act being less than \$10.00, the tax to be entered on the roll as payable for such purposes will be \$1.00."

The lands exempt from taxation under the provisions of this act shall be—

1. Any land held in trust for the crown.
2. Land specially exempted by law or held for the public use of the province of Alberta.
3. All lands held by or in trust for the use of any tribe of Indians.
4. The land to the extent of three acres held by or for the use of any church and occupied by a building used for church purposes.
5. The land in use for a public cemetery not exceeding twenty-five acres.
6. Land for which homestead on-

try has been made under the provisions of the Dominion Land Act, or any act substituted therefor and for which patent has not been issued.

7. All land held under grazing lease from the government of Canada, actually used for grazing purposes, and in accordance with the terms and provisions of the grazing regulations as from time to time in force.

8. Land vested in any library board established under the provision of the public libraries act, chapter 17 of the statutes of Alberta 1907, or any act passed in amendment or substitution thereof.

9. Land used by agricultural societies organized under the agricultural societies ordinance, or any act passed in amendment or substitution thereof.

10. Land attached to and used in connection with any hospital, which receives aid from the province under the provisions of the hospital ordinance, or any act passed in amendment or substitution thereof.

11. All land belonging to any city, town, village or rural municipality and used for the purpose thereof.

12. Land not exceeding four acres of and attached to or otherwise bona fide used in connection with or for the purpose of any university, or school established under the authority of the school ordinance, and every incorporated hospital, so long as the said land is actually used or occupied by such institution, but not if otherwise occupied.

13. Land held by the province under reservation for public purposes.

14. A fractional section of land less than one acre in extent or any lot desirable upon a registered plan being less than one acre in extent.

15. Land included within boundaries of an incorporated city, town or village.

16. All enclosed land which has been used for the purpose of pasturing horses, cattle or sheep which are the property of the owner of the land and upon which are the proper number of horses or cattle to the number of at least three for every ten acres so enclosed have been pasturing for at least six months during the previous year, provided that the minister of municipal affairs may by written order modify the requirements of this subsection for any given year or years, and for any section or sections of the province.

17. Land owned by a bona fide farmer who is actually residing on a portion of same, provided that the exemption under this clause shall not exceed 40 acres in the aggregate; such exemption however, may cover parcels of land which are not contiguous but which are situated within a radius of nine miles from the home of the owner.

18. The land of any owner where each section or portion thereof has had one-fourth of its area under cultivation or crop during the previous year; provided that where the owner has several portions of land within a radius of nine miles and in the same assessment district, the area under cultivation or crop may be on any portion.

To enforce the act, the government will have power to divide the province into assessment districts and to appoint assessors who shall assess the land "at its actual cash value as it would be appraised in payment of a just debt from a solvent debtor, or exclusive of the value of any buildings erected thereon or any other increase in the value caused by any other expenditure of labor or capital thereon."

Taxes shall be deemed to be due on the first day of January, 1915, in the year in which they are imposed, and if not paid by December 31, 5 per cent will be added. This interest will be repeated semi-annually thereafter. The minister has authority, however, to collect any taxes by distress after thirty days notice that they are due.

As no specific time is set for the coming into force of the act, it will become active as soon as assented to by the lieutenant-governor.

After the war, Canada should occupy a new place among the nations. By next year she should greatly increase the acreage in foodstuffs, for it is clear that Europe will produce the necessaries of life. Then she should enter more largely into the field of manufacture, for it is evident that Germany will no longer supply the allies with her goods. In all probability her greatest factories will for lack of workers and capital, be idle for a long time. There are many articles which can be manufactured here as well as in Germany. Canadians will do well to make enquiries as to how much time in preparing to meet the new conditions imposed by the war. "A horse all, should not effort be made to build up a mercantile marine. Canada will not reach her majority until she has provided fully for the transportation of her commodities. Industrial efficiency always needs it. These three things: production of raw materials, provision for manufacture and transportation of the same, are more of life we can keep in our own hands the better—Western Home Monthly.

HOW A SUBMARINE SHIP IS OPERATED.

So much has been written concerning what the submarine, by a flight of imagination, may achieve, writes the naval correspondent of the London Morning Post, that most people are somewhat uncertain as to what the submarine actually is and does. To begin with, she is shaped like a cigar and she carries to tower on her back. Inside the tubular steel hull, valves and tubes and pipeline the walls, are in a space so low that the engines can hardly stand upright, are the internal combustion engines and the electric motors that drive the vessel when she is under water. Below the floor or deck, of the inside of the hull are petrol and storage tanks. Forward are the torpedo tubes. Aft are the propellers. Downwards from the ceiling a thick brass column, ending in a brass cross piece. When the boat is submerged and the officer desires to see what is going on above, he sets a hand on each arm of the cross-piece, which is level with his face, and rotates the column, while he looks into the mirror. In the mirror he beholds an image, and bright, of a section of the sea and horizon, and by swinging it around, he can scan the whole circle, reflected in the periscope. A huge, white, like the eye of the steel ship. Alongside the periscope is the upright steel ladder, leading through two hatches to the deck of the conning tower, which is raised five or six feet above the top of the hull. It is about four feet in diameter and is protected by a breast high rail lined with canvas. Here is the wheel and here, when the vessel is running awash, stands the captain and the quartermaster. In the weather those of the crew who are not required to row are grouped on the little rail deck below the conning tower. The crew, which is made up of officers and men are dressed in sea-boots, sweaters and rough clothing.

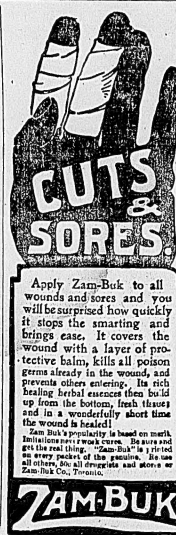

The submarine, running awash, goes silently onward with a heavy, grinding noise, the water lifting and dripping from the hull which projects on either side of the snout. Below the hull is filled with the crashing of the turning engines cranked into the narrow tube of steel. The engines squat placidly among the racine rods and pistons, in the thick atmosphere of the lower hull. Should the sea water enter the hull and mix with petrol-gas, the fatal chlorine gas is formed, and the crew is suffocated.

The method of the submarine is to cruise at economical speed in knots or less, on the surface, until she sight a hostile vessel. As she is so small, she can see another vessel before the other vessel can see her. When she sinks, the captain and the crew go below; the hatches are closed; and the captain swinging his weight upon the crosspiece from the periscope, his eye upon the mirror, gives his orders. The crew are lying along the sides ready to turn valves on or off. The internal combustion engines are stopped and the propeller shaft is connected up to the electric motors. There is a sudden silence.

The process of submerging is a process in the brain of the captain. He has a mental picture of what each tank contains and how much weight is driven out forward or aft at each order, and what will be the effect on the vessel. He communicates the process to the vessel itself. He must first dip her bows slightly, and then her stern, then he bows again and so on. If he makes a mistake the submarine may dive down and then all is done. The process is repeated in the brain of the lieutenant, who stands nearby the captain. In ordinary vessels, if an officer faints or makes a mistake, there are a dozen people who can put it right. Not so in a submarine. The only person besides the captain who knows what is going on is his lieutenant; but the consequences of a mistake would follow so quickly that the lieutenant could not rectify it. Nor would he know, in all probability, that a mistake had been made until the consequences had begun. The men lying alongside the valves know nothing except how to do what they are told. Nor is there any sensation of motion as the boat sinks. It seems to be as still as a drawing room on shore.

The periscope, which is about the size of a saucer, remains about eight feet inches above the surface of the water, and viewed from the deck of a ship, all that is seen is a fitting pennant of white spray, as it cuts the waves, like a swimmer's head. In any top it would be almost imperceptible at from two to three hundred yards.

On approaching to attack the submarine when lower and submerged the periscope, so that the captain looking in the mirror, sees his little and bright picture washed out in green—the green of the water. And from above nothing is visible at all. The submarine is now blind. She cannot see through water. But she can steer a course. Her captain has merged his periscope. And the range of German torpedoes is about 3,000 yards, at 25 or 30 knots. The submarine can fire her torpedoes, go up, presently rising until her periscope is above water, then herself continue beneath the water until it is safe to rise, and, like a whale, to breathe again.

Apply Zam-Buk to all wounds and sores and you will be surprised how quickly it stops the smarting and brings ease. It covers the wound with a layer of protective balsam, kills all poison germs already in the wound, and prevents others entering. Its rich healing herbs soothe and build up from the bottom, fresh tissues and in a wonderfully short time the wound is healed!

Zam-Buk's popularity is based on merit. Limitations are weak claims. Be sure and get the real thing. "Zam-Buk" is printed on every packet of the product. Use all others, be all deceptions and know as Zam-Buk Co., Toronto.

FARMERS

We are again prepared to do all kinds of Flour and Feed Grinding on short notice. Owing to our large capacity grinders we will grind at the low price of \$1.25 per ton in ton lots.

Rye and wheat at 20c per bushel.

TEACHER WANTED.—In the Wetaskiwin Inspectorate, to act as district Editor for the Alberta School Journal. Duties. To write monthly local notes, receive subscriptions and advertisements. Liberal payment on accepted matter, which with commissions from subscriptions, etc., should average \$10 to 30 a month. Must have \$100 to invest in stock of Company now forming to take over present business, which shows profits on past earnings equal to 15 per cent dividend. At only one appointment will be made in each Inspectorate, this is an unusual opportunity for a teacher to augment present salary. Apply at once to Editor Albert School Journal, Strathcona. 261-1n

PRAYERS FOR HELP.

"God bless our army and our navy and help us knock the blooding gray out of Graustark, o'er the way." Thus nightly prays the King of Zenda, nightly, then takes his gory ax politely and mingles in the fray. The King of Graustark, worn and bloody, kneels gravely in his royal study, and prays for aid divine. "Jehovah, hear a monarch pleading, and send the bullets we are needing along our battle line. Send us a raft of swords and lances, if you would multiply our chances to whip that sinful crew; Oh, send us guns, a d. smokeless powder, and send my staving soldiers chowder, and send 'em P.D.Q." The God of Battles must be weary through all the ages, long and dreary. He's heard that tale of woe; and He is surely sick of seeing the river souls of soldiers from blood-fied fields below. He must be sick of King and Colonel, of ruin, wreck and waste, inflation, of charge and shock and thrust; of Butcher Caco and of Nervus, of prying him a and braying heroes, and capitan drunk with blood. Oh, not on crimson fields distressing will God bestow His sov'reign blessing, and not on pory arms; but it will come when soldiers wander back from the strife and horror yonder, back to their homes and farms—Wolk Maccan. 28-41n

FOR SALE.—1 Westinghouse Electric motor, 2 h.p. Two phase, entirely new, and will be sold cheaply. See it at J. H. Robinson's Piano Parlor. 31-3t

CONDITIONS IN GERMANY

If Germany had known that the invasion of Belgium would involve her in a war with England, that country's neutrality would never have been violated, according to the manager of Germany of a great steel company, who returned to New York from Hamburg last week. When it became apparent that England was going to fight, he says, officers of the general staff told him that the government contemplated retreating before the Allies. They were only prevented, he said, through fear of its national spirit.

For a year, this official said, he has known that the war was bound to come. Taxes and super-taxes, he said, were so heavily on the people that there were no funds for the civil purposes, and needed improvements were neglected that war conditions he predicted.

Through his close association with high government officials, he was made aware of the fact that Germany felt that war must come imminently. In two years, he said, Russia and France would have been as perfectly equipped as Germany and the latter country would have been overwhelmed.

"I have spent seven years in that country, the official said, 'and every year, it has seemed to me. I have learned to like the Germans less, although I started out as one of the staunchest friends of the country. The spirit of militarism and autocracy, however, has made the Germans an almost impossible person, and this war, for the sake of humanity, must end militarism forever.'

"The spirit is a wonderful thing. Despite the fact that when I left Hamburg on September 17, the city was filled with wounded and trains were hourly bringing hundreds more, the thoughts of women and children (for that is all that is left in the cities now) seemed in holiday spirits. Each night the government prints lists of victories and each night in front of the city hall great throngs gather and the band plays and every body sings the national anthem.

"The people have been told time and again by the government that their Christian and their virtuous sons and husbands and fathers will come marching home after having taken Paris and London. They believe it implicitly. No fact of a possible setback to their army is permitted to reach them. No one knew that the French troops had reached Alsace until they were driven out, and no one knew that the Russians had invaded East Prussia until they were ordered to retreat. Then the announcement started that they had been beaten to that point so that the defeat would be more complete.

"The streets of Hamburg flutter with new flags each day celebrating a new victory. It was not until I reached Rotterdam, Holland, that I received the true news of the war and knew what was happening.

"All communication with my firm was broken off. Restrictions in Germany on foreigners are intolerable. One must write in German, and must register, in fact live on a false basis, to escape the impudent police and special officers. I breathed a sigh of relief when I reached England and was told to write in my old language and say old things. I wanted to say 'For we'll strike it out if we don't like it,' the censor told me. "The absolutely bloodthirsty spirit it shows in Germany is marvellous and repellent. School children are seen marching about as soldiers, with legs and arms bandaged, shouting and little girls wear red cross bands on their arms. Mobs of them have attacked foreigners who spoke English. The attitude of the German toward foreigners is a strange mixture of impudence and condescension.

"Commercially Germany is at a standstill, and it will take her many years to recover her balance, if she wins or loses. She is enormously strong in numbers of men ready for battle, but her credit is bad and her supplies are running short. All the petrol in the country was requisitioned for the government as soon as the war broke out, and I could not even get any for my car, Xghier.

HAIL INSURANCE

The Hail Insurance District of the province of Alberta has practically passed through its first season's experience under the rural municipality act, sec. 328 to 337A. The district is composed of twenty-five rural municipalities, some of which were created over the province. At the beginning of the year the board levied a rate of 31¢ per acre on all assessable lands. This rate was fixed upon the best data obtainable on the part of the board. The outcome, as will be seen from what follows, justified the rate.

The first report of hail came from a storm of June 16th, and the last from a storm of Sept. 10th, both from the same municipality. Between these two dates thirty other storms occurred at different places within the district. The greatest number occurring in one district was seven. Two out of the twenty-five districts each other that distinction. Two municipalities had six strikes

A BACKACHE

each, five of them five storms each, two four storms each, one three storms, four two storms each, seven one storm each, and two had no storms.

Of the months, June had seven hail storms, July eleven, August twelve, and September two.

Up to October 22 the claims for damage to crops by hail numbered 1,338.

The chairman of the board, R. H. Malcolm, had charge of the work of inspection. Eleven men, employed for a greater or lesser length of time, did work in the field under his supervision. The length of time given by the law for putting in the claim and afterwards making an appeal from the report of the inspector made the work somewhat difficult. However, the results have shown a commendable thoroughness and a desire to do justly by the claimant whose crop may have been damaged and by the ratepayer whose crop was not damaged and yet who was assessed to help bear the burden. The sum total allowed by the inspectors and by the board upon a review of the appeals is in round numbers \$190,000, or an average of \$12 per claim.

The assets of the board from the municipalities exceeds \$241,000. The fixed charges must be added to the amount set aside for indemnity. This will still leave a balance of more than \$35,000.

The board recommended to the department of municipalities and through it obtained some necessary changes in the law. It is evident to the board that a more widely extended territory will not only cheapen the pro rata cost of the administration of the affairs of the hail insurance district, but will also incline to a lower rate per acre.

FARE AND ABUSE OF FARM MACHINERY

Recent investigations by the Conservation commission reveal some very interesting facts regarding the effect of care, or neglect, as the case may be, upon the life of machinery owned by the farmer. Between 50 and 95 farms, divided into three districts, were visited in each of the three provinces of Manitoba, Saskatchewan and Alberta.

In Saskatchewan, out of 94 farms visited by the commission's representative, 74 have all of their implements out of doors. On average, three of the farms, there were no implements shown of any description. On 21 of the farms, about large enough to cover a part of the implements were found in most cases this being a buggy or a demountable, but not on one single farm was the machinery all housed. Not one farmer was found who painted his implements to protect them from the weather.

In Manitoba only 14 out of 94 kept their machinery under cover during winter, while 44 claim to keep part of it inside. On 34 of the Manitoba farms no provision whatever is made for protecting implements, and only four claim to have done any painting.

In the three districts visited in Alberta, mixed farming is carried on, quite extensively, making more barn rooms available, so that implements are more likely to be protected, but even here 37 out of the 92 visited leave all machinery out of doors.

In one district in Ontario where 49 farms were visited, every one housed his implements during winter although none of these men do any painting.

In the Ontario district visited where the implements are housed, the average life of the binder was found to be between 16 and 17 years. Many binders were seen which were in good running order after cutting 20 seasons' crops.

In Saskatchewan and Manitoba, where so much machinery is left out of doors, the average life of the binder is given by the farmers as about 7 years, which is less than half that of the binder protected from the weather. Many binders do not last 7 years. One farmer near Mooseomin, Sask., who after 12 years, was re-trigging from the farm, held an auction sale. His binder, after cutting 12 crops, sold for \$80, or half the

original cost, and his other machinery at proportionate prices. It had all been well housed and the necessary painting and repairing had been done to keep it in order. On a neighboring farm a binder which had cut only three crops, but which had been neglected and had stood out of doors, was being re-trigged to the scrap heap and a new one was being purchased.

An implement shed costs money, but if its use will double or triple the length of time the machinery will last, it is a good investment. Farmers often say that they cannot afford to be without one. Apart from the additional power necessary for operation, the depreciation on an un-housed machine on the average sized farm is so great as to amount to much more than the cost and upkeep of an implement shed. The binder works for only a short time during the year, while machinery in a shop works the whole year through and lasts proportionately many times longer. It is simply a matter of care. The life of a machine extends in direct ratio to the care it receives, and the farmer who neglects to shorten the life of any mechanism. The manufacturer is not responsible for the care of machinery after it is sold. This rests entirely on the farmer, and as a common sense business proposition he should look after his own interests sufficiently to house his implements and thus save the thousands of dollars wasted annually in unnecessary depreciation.

W. C. T. U.

LINCOLN AT A SALOON ECTOR

Some years ago at a Lincoln meeting among the old soldiers of a Michigan city, one of the battle-worn veterans gave the following testimony: "We have heard what Lincoln has done for all of us; I want to tell what he did for me. I was a private in one of the western regiments that arrived first in Washington after the call for 75,000. We are marching through the city amid the great crowds of cheering people, and then, after going into camp, where we were given leave to see the town. "Like many other of our boys the saloon or tavern was the first thing we hit. With my comrade I was just about to go into the door of one of these places, when a grim hand was laid upon my arm, and I looked up, there was Frederick Lincoln, from his great height above me, a manly and, regarding me, those kindly eyes and pleasant smile. "I almost dropped with surprise and bashfulness, but he held out his hand, and as I took it he shook it strongly western fashion, and said 'I don't like to see our uniform going into these places. That was all he said. He turned immediately and walked away; and we passed on. We would not have gone into that tavern for all the wealth of Washington city.

"And this is what Abraham Lincoln did then and there for me. He fixed me so that whenever I go near a saloon and in any way think of entering, his words and face come back to me. That experience has been a means of salvation to my life. Today I hate the saloon and have hated it ever since. I heard those words from that great man. "Ex-hunche.

It was announced from Ottawa on Friday that one year's extension of payment of rental on all leases under the petroleum and natural gas regions act has been arranged. This extension also covers the time for installation of machinery and for development of locations.

If You Wish to Be Well You Must Keep the Bowels Regular.

If the bowels do not move regularly they will, sooner or later, become constipated, and constipation is productive of more ill health than almost any other trouble.

The sole cause of constipation is an inactive liver, and unless the liver is kept active you may rest assured that headaches, jaundice, heartburn, piles, floating stools before the eyes, a feeling as if you were going to faint, or attacks of the stomach will follow the wrong action of this, one of the most important organs of the body.

Keep the liver active and working properly by the use of Milburn's Laxa-Liver Pills.

Mrs. Elijah A. Ayer, Pawcett Hill, N.B., writes: "I was troubled with constipation for many years, and about three years ago my husband wanted me to try Milburn's Laxa-Liver Pills, as they had cured him. I got a vial and took them, and by the time I had taken three vials I was cured. I always keep them on hand, and when I need a mild laxative I take one."

Milburn's Laxa-Liver Pills are 25c a vial, 5 vials for \$1.00, at all dealers, or mailed direct on receipt of price by the T. Milburn Co., Limited, Toronto, Ont.

Calgary Oil Fields

Free Market Letter

Commercial quantities of high grade oil in a proven field and tremendous development now under way, makes Calgary the next great fortune making centre. Bankers and business men from all quarters of the world are sending capital here to take advantage of the wonderful opportunities.

We are not promoters tied to one proposition and blind by prejudice, but are free and independent to recommend or condemn the various stocks according to our best judgment. Because of our large experience, and thorough knowledge of conditions, our recommendations are eagerly sought after.

The oil Barons of to-day are the early investors in new oil fields. The opportunity is here right now, during the development period, for both small and large investors.

Write to-day for map of the district, and our market letter—the authority on Calgary stocks.—Both Free.

Edmonton, Oct. 28.—The financial depression has had its effect on the lumber business as well as on other branches of industry. Owing to the lack of building operations this season, the mill yards in the city have become overstocked, with little hope of an immediate demand for lumber. For this reason none of the three mills operating here will send any into the bush this season to cut logs. This will have a material effect on labor conditions during the winter, for while last year only a host three hundred men were employed in the bush, under ordinary conditions as high as five or six hundred are employed in this way.

U. G. Stowell, of Wetaskiwin, and Claude Stowell of Red Willow and A. Ithysan, of Bawlf are on a goose hunt at Mounting Lake—Bawlf Sun.

The regular monthly meeting of the Women's Home Missionary Society will be held at the Masonic on Monday, Nov. 9, at four o'clock. All members are urgently requested to attend.

The sympathy of the entire community is extended to Mr. and Mrs. Ed Bye, in the loss they sustained a few days ago when their infant daughter, aged seven months and twenty days, was taken from them after a brief illness.

At a meeting of the public school board on Wednesday evening, the application of Wm. Berry was accepted for the position of caretaker of Alexandra school, succeeding J. P. Greenburg. There were ten applications.

Chas. H. Pickett, of Hastings Cuts, was in town on Tuesday, with a load of Lodoga wheat, which weighed 53 lbs to the bushel. M. Heiser of Spring Lake, brought in another load which went within a half pound of the same mark—Dayland Press.

Frederick Stobart, representing the British government, has given an order for a million and a half shirts which will be sent over your factory in Canada every year for some months. Another order has been given for 50,000 saddles. This order amounts to over \$2,500,000. Other large orders are expected.

A communication in connection with the German school in this city from Rev. O. H. Schmidt is crowded out of this issue but will appear next week. A communication in connection with the hockey club will also be published if the contributor will send as his name, as it is the policy of the Times to know who are contributors to its columns.

The citizens of Wetaskiwin were shocked on Wednesday to learn that T. P. Poul was found with life extinct in a tent on the farm of Peter Poul, a few miles west of the city. He was assisting in the erection of a building and was working only a short time before he remains were found. He was one of the first settlers in Wetaskiwin, and was held in the highest esteem by everyone who knew him. Because was in his fifty-seventh year, and leaves a sorrowing widow and grown-up family. The funeral takes place tomorrow (Friday) afternoon.

Below is the standing of the seven highest students in the Garbutt Business College for the two weeks ending October 30. These marks do not indicate the standing in Bookkeeping shorthand and typewriting.

Mr. Youngberg	76
Miss Watsonson	74
Miss Alsberg	73
Mr. Mullin	68
Miss Shedine	63
Miss Webster	64
Miss Brodie	61

On Thursday last Chief James recalled a phone message from Camrose that John Lest, a C.P.R. repairer had been assaulted and left in the water tank in an unconscious condition, and asked him to watch out for the culprit. A short time afterwards he arrested four men and they were identified as the parties wanted. At the trial in Camrose they were sentenced to one month in the Penitentiary on the charge of stealing a ride on the C.P.R. train, and were sent up for trial on the charge of assault.

The problem of maintaining the aliens in this country is causing quite a little concern. Many of the large employers of labor have been dismissing their German and Austrian help with the result that they are out of work and as the government will not allow them the leave the country something must be done for their maintenance. It has been suggested to round them up into concentration camps. It is estimated that there are from 50,000 to 100,000 Austrian and German aliens in Canada at the present time. A thorough search for weapons is being made and it is likely that they will all be compelled to register.

Edmonton, Nov. 2.—In the arrest of Frank Heaton, Charles Pierson, and James McMillan, early yesterday morning, the city police claim to have secured three of the most dangerous yeggs in the country. There are seven charges of house breaking and one of attempted safe blowing against them. They are alleged to have been breaking into apartment suits during the last few days and early yesterday morning were turned while trying to blow open with nitro-glycerine the safe of John Hardy, butcher, of South Edmonton. A complete list of the stolen goods and burglar's tools were found in their possession, and \$5,000 worth of goods, including jewelry of all descriptions.

CARD OF THANKS

Mr. and Mrs. Ed Bye wish through the columns of the Times to thank their many friends for the assistance and sympathy extended during their recent bereavement.

Kidneys Wrong?

If they are you are in danger. When through weakness or disease the kidneys fail to filter the impurities from the blood, trouble comes at once. Rheumatism, Rheumatism, Sciatica, Gravel, Diabetes, Gallstones and the deadly Bright's Disease are some of the results of neglected kidneys. Dr. Morse's Indian Root Pills contain a most effective diuretic which strengthens and stimulates the kidneys so that they do their work thoroughly and well.

Dr. Morse's "Indian Root Pills"

NOTICE.

To George V. Jensen, Late of Wetaskiwin, Alberta.

TAKE NOTICE that an action has been commenced against you by Jane G. Ambler for money due by you to her on account of the purchase of the south-east quarter of Section thirty-six (36), Township Forty-six (46), Range Three (3), West of the Fifth Meridian, and in default of payment of the money to be due for foreclosure and sale of the said lands.

AND FURTHER TAKE NOTICE that if you dispute the said claim in whole or in part you do so before the 7th day of December, A.D. 1914, cause to be entered for you in the office of the District Court of the District of Wetaskiwin, in the Province of Alberta, at Wetaskiwin, a Demand of Notice, or Statement of Defence, and in default of your so doing, Plaintiff will proceed with the action without further notice to you.

Dated at Wetaskiwin this 29th day of October, A.D. 1914.

LOGGIE & MANLEY, Solicitors for the Plaintiff.

31-2ta. Wetaskiwin, Alberta.

NOTICE TO CREDITORS AND CLAIMANTS.

IN THE MATTER OF THE ESTATE OF BENJAMIN PURNELL, late of the City of Wetaskiwin, in the Province of Alberta, deceased.

NOTICE IS HEREBY GIVEN that all persons having claims on the estate of the above named Benjamin Purnell, who died on or about the 4th day of February, A.D. 1914, are required to file with Charles Braest Pelling or with the undersigned solicitors by the 7th day of December, A.D. 1914, a full statement duly verified of their claims and of any securities held by them, and that after that date the administrator will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to his or their attention.

Dated this 15th day of October, A.D. 1914.

LOGGIE & MANLEY, Solicitors for the Administrator.

31-3in. Wetaskiwin, Alberta.

SHERIFF'S SALE

Province of Alberta.

To Wit:

By virtue of a Writ of Execution issued out of the District Court of the District of Wetaskiwin, at the suit of E. H. O'Brien, Plaintiff, and Jacob Edlund, executor of the deceased Peter Pearson, otherwise Pearson, otherwise E. H. O'Brien, defendant, and to me directed against the lands of above defendant, I have taken into Execution the following lands, namely:

North West quarter of Section Six (6), Township forty-six (46), Range twenty-six (26) West of the Fifth (4th) Meridian, excepting mines and minerals.

which I shall expose for sale on Monday the 14th day of December at the Court House, Wetaskiwin, at the hour of two p.m.

"A. R. Dickson," Sheriff.

Sheriff's Office, September 14th, 1914. 30-38n

THE WEAK SPOT IN THE BACK.

When the kidneys get ill the back gives out.

But the back is not to blame. The ache comes from the kidneys, which lie under the small of the back.

Therefore, dull pain in the back, or sharp quick twinges, are warnings of sick kidneys—warnings of kidney trouble.

Plasters and liniments will not cure back aches, for they do not reach the kidneys which cause it.

Don't's Kidney Pills reach the kidneys themselves. They are a special kidney and bladder medicine.

They clear the diseased surface of kidneys and bladder, and help them to work freely and naturally.

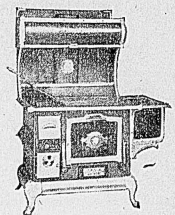

Mrs. Chester Romain, Fort Couderay, writes: "I have been troubled with sore back for over four years, and could get nothing to do me any good until I heard of your Don't's Kidney Pills. I got three boxes, and took them and am completely cured."

Don't's Kidney Pills are 50c a box, 2 boxes for \$1.25, all dealers or mailed direct on receipt of money to The T. J. Millard Co., Limited, Toronto, Ont. When ordering direct specify "Don't's."
